PROJECTS

PORTFOLIO WEBSITE –STOCK MARKET WEBSITE | HTML, CSS, Bootstrap, JavaScript, NodeJS, EJS, MySQL,

I made this website for the user to have the experience of stock trading. I worked on both the front-end and back-end aspect of this project. Connected and managed the MySQL database with the website and wrote script in Nodejs for web scraping which resulted in real time stock price update.

I also made a E-commerce website and a Netflix clone during my lockdown period.
